

CLAIDERMAN ALEXANDER LOZANO CARDONA

SOFTWARE DEVELOPER

<https://www.linkedin.com/in/claiderman-lozano/>

ABOUT ME

Backend Developer with over 6 years of experience designing and building REST APIs, microservices, and cloud solutions.

Strong experience in Java/Spring Boot, complemented by TypeScript/Serverless, Python/FastAPI, Docker, AWS, and Azure DevOps.

I have participated in projects for clients such as Bancolombia, Banistmo, and Grupo Familia, and currently develop backends for video game and virtual training platforms.

Focused on scalable, high-performance, business-oriented solutions.

EXPERIENCE

PolygonUs - Backend Developer

March 2024 - Currently

- I developed and implemented serverless architectures and backend solutions for high-concurrency video game and interactive application projects.
- I optimized the performance of critical services in high-load environments.
- I participated in the development and maintenance of a web platform + LMS focused on training in digital arts, video game development, and artificial intelligence.

Pragma S.A - Software Developer

August 2020 - October 2023 (3 Years and 3 months)

- I developed microservices and REST APIs for clients in the financial and retail sectors (Bancolombia, Banistmo, Grupo Familia) using Java and Spring Boot.
- I participated in the design and implementation of cloud solutions on AWS and Azure, integrating DevOps practices (CI/CD) and agile methodologies (Scrum and Kanban).

EDUCATION

2022 Software engineering

Politécnico Grancolombiano - Postponed

2020 Technologist in Information Systems Analysis and Development.

Sena - Finished

2018 Systems Technician

Sena - Finished

TOOLS

Languages

Java · TypeScript · Python · C#

Frameworks & Libraries

Spring Boot · FastAPI · Django · Node.js · Serverless · Unity

Databases

PostgreSQL · MySQL · MongoDB · DynamoDB · Redis · Firebase

Architecture

Microservicios · APIs REST · GraphQL · WebSockets · Webhooks

Cloud

Amazon Web Services (AWS) · Azure

DevOps & Infrastructure

Docker · Kubernetes · CI/CD · Azure DevOps · Jenkins · GitHub Actions · Git

Messaging and Caching

RabbitMQ · SQS · Colas · Cache

Methodologies

Scrum · Kanban · Jira
